## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1, 4, 5, 7-9, 11, 12, 15 and 16 are allowed.
2. The following is an Examiner's Statement of Reasons for Allowance:

In interpreting the claims, in light of the specification and the applicant's amendments filed December 20th, 2006, the Examiner finds the claimed invention to be patentably distinct from the prior art of record. The prior art does not teach all of the limitations of the independent claims in combination with the other elements presented.

The prior art of record teaches adding positional and other relevant information to email messages using an intermediary server (Murata, abstract). The prior art also teaches the use of a unified communication system using email to enable telephone calls to be placed directly from received email messages (Gifford, abstract). The prior art also teaches direct calling capabilities from web-based mobile devices (Kamada, abstract).

However, as per the amended independent claims, the prior art fails to teach an email forwarding device which adds a predetermined telephone number data item to an email, wherein the telephone number data is related to a user's information, initiates a

direct link to a telephone function, is selected by a telephone number corresponding to the telephone, and where the selection is confirmed by the user.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nicholas Taylor whose telephone number is (571) 272-3889. The examiner can normally be reached on Monday-Friday, 8:00am to 5:30pm, with alternating Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharra can be reached on (571) 272-3880. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
